

BOUNDARY BREAKS

VINEYARD

RIESLING BUBBLY

We harvest the fruit for this wine earlier to ensure a crisp, refreshing sparkling character. We use a state-of-the-art process to add carbon dioxide to the wine following fermentation. The result is an affordable, pleasing sparkling wine suitable for any occasion, not just holidays.

At one time, sparkling wines from New York State were some of the best-selling sparkling wines made in the United States. The cool climate of the region makes it ideal for this style of wine.
